Small Lamp Causes Lots of Smoke

What could have been a very tragic accident was averted at about 1 o'clock Friday morning when Mrs. Ron Watson awoke to find her bedroom full of smoke. She quickly removed the children from the room and upon investigation found that the baby had kicked the covers off her bed and they had fallen on a little night light. The Christmas tree bulb had had enough heat to start the woolen bedding smouldering and in the process completely ruined a wool quilt, two blankets and part of a sheet. Probably if it had been anything but wool the Watson home would have been a pile of ashes by now.

One of the unusual things about the incident was the fact that while the occupants of the room were asleep there was no coughing or sputtering but as soon as they were awake the smoke made them cough.

Mrs. Watson says that she hopes other people with night lights in their bedrooms will take a warning from her close call and take the necessary steps to prevent it happening to them.

Mr. and Mrs. Chris Tollesstrup accompanied by Mr. and Mrs. Tollesstrup accompanied by Mr. and Mrs. Dave Tollesstrup were visitors at Waterton on Saturday.

Mr. and Mrs. Warren Jones spent an enjoyable holiday in the U. S. last week. After visiting Warren's sister in Hope, Idaho they motored to Spokane for a short stay and then on to Creston, B. C. and home.

Joe Keeler gave the very interesting lesson at the Sunday Nite Club held at the home of Mr. and Mrs. Gordon Stone this week.

After the lesson a lovely lunch and chatting was enjoyed by all.

Tickets Still Available For Gov.-Gen. Visit

One week from Wednesday His Excellency, the Governor-General of Canada, will visit Raymond with the following program outlined. The vice-regal party will arrive at the Factory Club House at 10:30 and will be met by Mayor Tayor and the official welcoming committee and will then go to the Opera House to speak to the students and any of the townspeople who care to attend. There will be a short program with an address of welcome by the Mayor and other presentations.

Prizes went to Mrs. Gladys Gough for the top score and to Mrs. Larry Dahl for consolation.

A delightful lunch was served at the conclusion of the evening.

Mr. and Mrs. Johnny Boehme and boys spent Sunday in Magrath visiting her parents, Mr. and Mrs. Jack Rasmussen.

The hosts were honored guests at a party held at the Lincoln Wood and here at which time Mr. Massey will speak. After the luncheon the surprise birthday party was planned for Mr. Card by the Woods and a surprise anniversary party for the Woods, by Mr. and Mrs. Card and the Roi Stones and Bill Fairbanks, so one big bang-up affair was enjoyed by all.

Hamburgers, salads, corn on the cob etc. and a lovely big birthday cake baked by Mrs. Taylor was enjoyed around the open fireplace after which they crossed over to Card's patio for some square dancing with Joe Strong doing the calling.

Mr. Card was presented with a Book of Poems from the group and Mr. and Mrs. Wood received a Breakfast Set.

The guests present to enjoy the fun set up at Coutts. Butler Nader was very happy to have the company of Kings, Howard Rasmussen, T. Geo. George Ralph on that early morning Woods, Frank Taylors, Owen Kings, and Heber Allen.

Venita Vance was a weekend visitor in Great Falls this week; accompanying Homer Le Baron on a portion of his trip to Logan where he is attending Agricultural College.

Mr. and Mrs. John McPhee motored to Edmonton over the weekend, taking with them Philip Redd and George Fairbanks who are entering University. Philip plans to study Education and George Engineering.

Mrs. Alice Court has as her guests this week Mrs. Vern Henry of Ferny, Mrs. Ren Mitchell and son Richard, and Mr. and Mrs. Earl Greep of Castlegar, B. C.

Tom Holmes Married in Ottawa

A lovely wedding of interest to Raymondites was solemnized in the LDS Chapel in Ottawa on September 17th when Janet Keating, daughter of Mr. and Mrs. Jack Turner of Ottawa, became the bride of Tom Holmes, son of Mr. and Mrs. Godfrey Holmes, President Toone of the Eastern Canadian Mission officiated.

The bride chose a white ballerina length gown with a full, net overskirt and short net sleeves. Her fingertip veil cascaded from a sparkling coronet and she carried a bouquet of red roses.

The bride's two attendants chose ballerina length gowns of mauve and yellow, complemented by big picture hats.

Robert was his brother's best man and two former missionary companions were ushers.

A Reception was held immediately following the ceremony in the Recreation Hall which was also beautifully decorated with gladioli and asters. Mr. and Mrs. Solon Low and Mr. and Mrs. Turner joined the bridal party in the Receiving line. After an entertainment program and a dainty lunch, the newly weds left on their honeymoon trip to New Brunswick, New Jersey, where Robert attends University, and New York.

They will make their home in Provost where Tom plans to attend the BYU, studying Business Management and Physical Education.

Mrs. Thelma Turner was the hostess at the Wednesday Night Club last week, at which Mrs. Rose Hudson was a special guest.

Prizes went to Mrs. Gladys Gough for the top score and to Mrs. Larry Dahl for consolation.

A delightful lunch was served at the conclusion of the evening.

Mr. and Mrs. Johnny Boehme and boys spent Sunday in Magrath visiting her parents, Mr. and Mrs. Jack Rasmussen.

The hosts were honored guests at a party held at the Lincoln Wood and here at which time Mr. Massey will speak. After the luncheon the surprise birthday party was planned for Mr. Card by the Woods and a surprise anniversary party for the Woods, by Mr. and Mrs. Card and the Roi Stones and Bill Fairbanks, so one big bang-up affair was enjoyed by all.

Mr. Card was presented with a Book of Poems from the group and Mr. and Mrs. Wood received a Breakfast Set.

The guests present to enjoy the fun set up at Coutts. Butler Nader was very happy to have the company of Kings, Howard Rasmussen, T. Geo. George Ralph on that early morning Woods, Frank Taylors, Owen Kings, and Heber Allen.

Anyone wishing to attend the civic luncheon may purchase their tickets at the Town office and all those attending are advised that they must be seated before the arrival of the official party.

It is a verified rumor that a man who usually is very friendly with his soft and downy bed forsook that comfort at about 5:30 the other morning to travel to Sweet Grass so that he could inspect the new part of entry set up at Coutts. Butler Nader was the Howard Melchins, Shirley

Provo as well as Gary and Patrick Woolley, Dorothy Dahl, Ruth Nader, Clawson of Stirling. A very enjoyable social evening was spent together.

The Graphic Arts School of Ryerson Institute of Technology in Toronto opens for the 1952-3 season on September 15th. The enrollment for the first year courses in Printing, and in the school of Journalism, is slightly lower than last year. The courses have now been extended to three years. The demand for graduates has far exceeded the supply. Ryerson Institute is operated by the Department of Education of the Province of Ontario. Tuition fees of \$66.00 for Ontario students can be considered reasonable. Each section of the Institute has an Advisory Board of representatives from industry.

Night school classes are conducted beginning early in October.

POWER TAKE-OFFS ARE DANGEROUS

The power take-off on the farm tractor is a dangerous attachment, which should only be used with the greatest care. The careful operator will make sure that it is properly shielded at all times. Within the past few days there have been two tragic accidents in Alberta involving power take-offs.

A Cardston district farmer was burned to death after becoming trapped in the take-off of a hay baler. While making an adjustment his arms apparently became entangled and for some reason the machine caught fire. He was dead when found.

In the Vulcan district another farmer received fractures to an arm and a leg as well as other serious injuries. He was drawn into the swath when he leaned over the unshielded power take-off. His hired man and a neighbor, who happened to be passing by on a nearby road at the moment, saved him from even greater injury.

The Importance of Soil Conservation

Because of mechanization the exploitation of the soil in North America is possibly the worst in the history of mankind. Already in the comparatively short history of the United States 50 million acres of choice farm lands have been ruined, 100 million acres have lost 75% of the top soil and a further 100 million acres have lost 25% of the productive layer.

Four billion acres of arable land, at the present time, feeds the world's population of 2 1/4 billion human beings. The population of the world is increasing rapidly, while at the same time the soil resources are being destroyed through erosion.

Soil Not Thoroughly Understood. Possibly the biggest stumbling block in soil conservation is the fact that many people think of soil as simply a mixture of minerals and organic matter, which must be cultivated in order to produce a crop, and which tracks up the kitchen in wet weather. Soil is indeed a mixture of minerals and organic matter but it is also a living mass of tiny organisms. The work of these organisms is to change the raw minerals and organic matter of the soil into plant food. Without them no crops could be grown, and without organic matter the soil organisms have nothing on which to live. Organic matter is important in other respects also. It enables the soil to absorb moisture and to retain it. It holds the soil together. Without organic matter and fibre the soil has no binding material. It is then at the mercy of every wind that blows over it and every rain that falls upon it.

Bare Fallows Destructive. Most of our erosion takes place on bare fallows. Nature always supplies a protective cover. We could protect our fields if the trash and stubble remaining after cropping was utilized to the best advantage. Burning, careless cultivation, or the wrong choice of implement can destroy that protection. We need a change in our attitude toward the soil. We must all work for conservation. Yes, you too have a responsibility to the soils of Western Canada.

BRITISH CARS IN CANADA
Returning from the British Motor Show at C. N. E. recently, Mr. It not ourselves, is faring too well. This Gresham Cooke, Director of the British Society of Motor Manufacturers, said: habit of speaking of gross profits as "Tremendous strides have been made if they actually were profits. We in capturing substantial portion of the should know very well that before Canadian market. One in every ten cars seen on the roads in Canada is British. Our manufacturers are selling about 30,000 cars a year there and earning Britain a matter of \$50,000, 000.

Mr. and Mrs. A. D. Grant of Medicine Hat were week-end guests at the home of Mr. and Mrs. Jim Grant this week.

Nearly 2,000 new television stations may be licensed soon in the United States because television scientists and engineers, led by a team from the Radio Corporation of America, found that an estimated 70 channels in the upper regions of the air waves could be used for Ultra-High-Frequency telecasts.

Much of the opposition to profits returning from the British Motor arises from the idea that somebody, governments, at various levels, have removed substantially more than half the profits. Despite this fact the public goes right on believing that profits distributed to individuals represent 25 to 30 cents on the sales dollar. In answer to various surveys, these same individuals have stated their belief that 15 cents on the sales dollar should be ample, and certainly would be in line with wages.

Another survey just recently made public by the Brookings Institution indicates pretty clearly that if undue profits are being secured by anyone a goodly percentage of us critical folk must be among the profiteers. Our position cannot be so much different from that existing in the United States where this survey shows that about one in six American families are stockholders in public companies and almost an equal number are sharing in the profits of private companies. More than that, it shows that 53.3% of the holdings belong to individuals and that 27.3% of the total have incomes ranging from \$2,000 to \$5,000, and 4.3% have incomes under \$2,000. If there are unprofitable profits, it seems there fore that people in our income groups are getting the lion's share.

Perhaps when we realize this we will be more ready to consider profits from a reasonable standpoint. Remember that in our more reasonable moments we have already stated our belief that reasonable profit would be about 15 cents on the sales dollar. As a matter of fact the governments Taxation Statistics makes it very clear that any business executive who could point to a 15 cent profit on the sales dollar would almost certainly have exploded from vanity. Take a look at the years past. In 1945, profits after taxes averaged 4.1 cents of the sales dollar. From that date it began to increase, at least in appearances. In 1952 it was 5.2 cents. In 1947 6.7 cents. In 1948 6.9 cents. In 1949 it slipped back to 5.8 cents. Remember too that this sales dollar was only half as valuable as the 1945 dollar, so the apparent increases did not represent a benefit to the receiver, but a loss. There are other arguments we could use too, for example, that what the investor got was something less than half of this profit, the remainder going back into the business for the benefit of everyone, particularly the worker. So, all things considered, if we want to find a scapegoat on which to hang an argument of excessive profits, we had better begin looking at ourselves.
